PROFESSIONAL SUMMARY

MSc Computer Science graduate (UCD Dublin, 2025) with 1.5 years of professional software engineering experience shipping production AI systems, distributed backends, and SaaS products. Built an agentic chatbot with Claude API that cut inbound support by 30%, a Kafka-based ad engine handling 10,000 events/min, and an ML fraud-detection pipeline achieving 84% accuracy at 60% manual review reduction. Brings the fundamentals, ownership mentality, and production track record that make the difference at day one - not month six. Case study: dhruvabisht.com

CORE COMPETENCIES

Production AI / Agentic Systems	Full-Stack SaaS Development	Distributed Systems	REST API Design
TypeScript / JavaScript / Python	Machine Learning (NLP, scikit-learn)	AWS (Lambda, EC2, S3)	Fast Shipping / Ownership Mindset

EXPERIENCE

NomadEire Oct 2025 - Present

Software Engineer · Dublin, Ireland (Hybrid)

- Built **NomadOps** product end-to-end as both Product Owner and engineer; ran discovery, wrote user stories, shipped features - product adopted by internal operations team on schedule
- Architected **Kafka Ad Engine** handling 10,000+ events/min with sub-100ms delivery latency and Elasticsearch-backed aggregations
- Built **Venturella** marketplace payment layer with Stripe integration, idempotent retry logic, and sub-200ms PostgreSQL query performance; zero payment failures in production
- Developed microservices using Node.js, TypeScript, Docker, and AWS (EC2, S3, Lambda, API Gateway)

Advice Bytes May 2025 - Aug 2025

AI Software Engineer · Dublin, Ireland (Remote)

- Sole AI engineer; designed and shipped **Advice Bytes chatbot** using Claude API with RAG architecture and Supabase vector store in six weeks
- Achieved **30% reduction in inbound support tickets** and **87% accuracy on GDPR-sensitive queries**; built full evaluation framework before production rollout
- Integrated multi-turn conversation management, document ingestion pipeline, and real-time streaming responses
- Stack: TypeScript, Claude API, Supabase, Node.js, React, PostgreSQL

Accenture Oct 2023 - Aug 2024

Packaged App Developer · Dehradun, India (Hybrid)

- Developed and maintained enterprise Java/Spring Boot applications for large-scale client deployments
- Worked across microservices architecture with REST APIs, CI/CD pipelines, and cross-functional agile teams
- Delivered production features under strict SLA requirements; collaborated with architects and business analysts

PROJECTS

Sentinel-AI - ML Fraud Detection Pipeline Production

Built scikit-learn classification pipeline with feature engineering achieving **84% accuracy** and reducing manual review volume by **60%**. Integrated as REST API into production workflow; designed retraining cadence from reviewer feedback.

Python · scikit-learn · REST API · PostgreSQL · Docker

Kafka Ad Engine Distributed Systems

Event-driven advertising delivery system processing **10,000+ events/min** at sub-100ms P99 latency. Elasticsearch aggregations for real-time analytics; fault-tolerant consumer group design.

Apache Kafka · Elasticsearch · Node.js · TypeScript · AWS

Advice Bytes Chatbot - Agentic AI Customer Support AI / Agentic

Production RAG-based chatbot (Claude API) reducing inbound tickets by **30%**, achieving **87% GDPR accuracy**. Built evaluation framework, document ingestion pipeline, and streaming response layer from scratch.

Claude API · Supabase · TypeScript · React · PostgreSQL

Venturella Marketplace - Full Payment Layer Backend

End-to-end Stripe payment integration with idempotent retry logic, sub-200ms query performance, and zero production payment failures. Designed PostgreSQL schema for transactional consistency.

Node.js · Stripe API · PostgreSQL · TypeScript · AWS Lambda

EDUCATION

MSc Computer Science · University College Dublin 2024 - 2025

2:1 Honours · Dublin, Ireland

BTech Computer Science · Graphic Era University 2019 - 2023

9.2/10 CGPA · Dehradun, India

SKILLS

Languages: JavaScript, TypeScript, Python, Java, SQL, Swift

Frontend/Backend: React, Node.js, Spring Boot, REST APIs, Microservices, Tailwind CSS

AI/ML: Claude API, OpenAI API, Gemini API, Agentic Workflows, NLP, scikit-learn, RAG

Cloud/Infra: AWS (EC2, S3, Lambda, API Gateway), Docker, PostgreSQL, Supabase, Elasticsearch, Apache Kafka
