Dublin, Ireland | Stamp 1G

PROFESSIONAL SUMMARY

Frontend Engineer with full-stack delivery experience building production React and TypeScript applications. Built and shipped Venturella (React payment platform, sub-200ms performance), NomadOps (end-to-end PO and engineer, React/Node.js/AWS), and Advice Bytes chatbot (React chat UI driving 30% inbound reduction). CS degree UCD 2025. Dublin-based, full work authorisation, immediately available. Portfolio: dhruvabisht.com.

CORE COMPETENCIES

React + TypeScript	JavaScript (ES6+)	Component Architecture	Tailwind CSS / Design Systems
Node.js Backend	REST API Integration	AWS Deployment	Performance Optimisation

WORK EXPERIENCE

NomadEire Oct 2025 - Present

Software Engineer | Dublin, Ireland

- Owned React frontend architecture for NomadOps, a full-stack platform built from scratch as sole engineer and product owner
- Built reusable component library with Tailwind CSS; implemented responsive layouts and state management across the product
- Integrated Node.js backend APIs and AWS services (Lambda, S3, API Gateway) end-to-end without a separate backend engineer

Advice Bytes May 2025 - Aug 2025

Software Engineer | Dublin, Ireland

- Built React-based chat interface for AI support chatbot; implemented real-time streaming responses from Claude API backend
- Designed and shipped component architecture for conversation state management and GDPR-compliant display controls
- Product result: **30% reduction in inbound support volume** within first month of deployment

Accenture Oct 2023 - Aug 2024

Packaged App Developer | Bengaluru, India

- Developed frontend and backend components for enterprise applications using Java, Spring Boot, and REST API patterns
- Collaborated in agile sprints with product and QA teams to deliver UI features and integration work on schedule
- Maintained API documentation and participated in code reviews for quality and standards compliance

KEY PROJECTS

Venturella Full-Stack

Full-stack platform with end-to-end payment layer. Built React component system with TypeScript, Tailwind CSS. Implemented payment flow with Stripe, webhook handling, and real-time state updates. **Sub-200ms PostgreSQL query performance**. Zero post-launch production issues.

React · TypeScript · Tailwind CSS · Node.js · PostgreSQL · Supabase · Stripe

NomadOps Product Owner + Engineer

Full product delivered as sole PO and engineer. Designed component architecture, built React frontend with Tailwind, integrated Node.js/AWS backend. Managed requirements, backlog, and production deployment independently.

React · TypeScript · Node.js · AWS · Tailwind CSS · PostgreSQL

Advice Bytes Chatbot Deployed

AI chat interface built on React with real-time Claude API streaming. Component system for conversation management, message state, and GDPR display controls. **30% inbound reduction** post-deployment. Designed for accessibility and mobile-first layout.

React · TypeScript · Claude API · Node.js · AWS Lambda

Sentinel-AI AI

Content moderation system with React admin dashboard for review workflow. Backend: Python NLP pipeline. **84% classification accuracy, 60% manual review reduction**. Dashboard replaced manual spreadsheet process.

React · Python · scikit-learn · Claude API · REST API

EDUCATION

MSc Computer Science - University College Dublin (UCD) 2024-2025

Result: 2:1 | Web Engineering, Advanced Algorithms, Distributed Systems, AI Applications

BTech Computer Science - Graphic Era University, India 2019-2023

CGPA: 9.2/10 | First Class Honours

TECHNICAL SKILLS

Frontend: React, TypeScript, JavaScript, Tailwind CSS, HTML/CSS, Electron

Backend: Node.js, Java, Spring Boot, REST APIs, GraphQL, Microservices

AI/ML: Claude API, OpenAI API, Gemini API, Agentic Workflows, NLP, scikit-learn

Cloud/Infra: AWS (EC2, S3, Lambda, API Gateway), Docker, PostgreSQL, Supabase Languages: Python, Swift, SQL
