PROFESSIONAL SUMMARY

Software engineer with hands-on AI deployment experience, specialising in building and shipping AI-powered customer support automation for SaaS companies. Deployed a Claude API RAG chatbot that reduced inbound support by 30% with 87% GDPR accuracy, and built a multi-agent AI pipeline achieving 84% accuracy in production. Strong in Python, TypeScript, Node.js, React, and REST API integration. Startup product delivery experience as sole engineer and product owner. MSc Computer Science, UCD Dublin 2025. Portfolio: dhruvabisht.com.

CORE COMPETENCIES

AI Agent Deployment

Support Automation

REST API Integration

Python / TypeScript

RAG Systems

SaaS Product Delivery

Cross-functional Collaboration

Startup Engineering

WORK EXPERIENCE

NomadEire

Oct 2025 - Present

Software Engineer

- Sole engineer and product owner for NomadOps -- ran customer discovery, defined technical scope, built, and shipped the full product to production at startup pace.
- Collaborated with stakeholders across Sales and Operations to translate business needs into shipped software features using **TypeScript, React, Node.js, and PostgreSQL**.
- Built and maintained REST API integrations with third-party services on AWS, demonstrating the cross-functional delivery model central to the FDE role.

Advice Bytes

May - Aug 2025

AI Developer Intern

- Deployed a **Claude API RAG chatbot** to production, reducing customer inbound support volume by **30%** and achieving **87% GDPR compliance accuracy**.
- Built with Python, Supabase vector store, AWS Lambda, and API Gateway -- collaborated directly with client stakeholders to iterate based on real customer feedback.
- Designed and ran the evaluation framework, measuring success through inbound ticket reduction and compliance audit scores -- the same outcome mindset the FDE role requires.

Accenture

Oct 2023 - Aug 2024

Packaged App Developer

- Delivered enterprise backend features using **Java Spring Boot** in Agile consulting teams, working directly with client stakeholders to define and ship solutions.
- Developed cross-functional collaboration and client-facing communication skills in a delivery-focused consulting model.

KEY PROJECTS

Advice Bytes AI Chatbot 30% INBOUND REDUCTION

Production Claude API RAG system deployed to serve real customers -- reduced inbound support by 30% and achieved 87% GDPR accuracy. Iterated based on live user feedback using evaluation metrics aligned to business outcomes.
Stack: Claude API, Python, Supabase, AWS Lambda, API Gateway

Sentinel-AI 84% ACCURACY · 60% REVIEW REDUCTION

Multi-agent AI compliance pipeline achieving 84% document analysis accuracy and 60% reduction in manual review. Full architecture ownership including agent orchestration and production deployment.
Stack: Claude API, Python, FastAPI, Docker, PostgreSQL

Venturella SUB-200MS QUERIES

Full payment platform with Stripe REST API integration, sub-200ms PostgreSQL query performance, and complete full-stack delivery in TypeScript, React, and Node.js.
Stack: TypeScript, React, Node.js, PostgreSQL, Stripe

EDUCATION

MSc Computer Science University College Dublin (UCD), Ireland Grade: 2:1	2024-2025
BTech Computer Science Graphic Era University, India Grade: 9.2/10 (First Class Honours)	2019-2023
