PROFESSIONAL SUMMARY

JavaScript and Python software engineer with production experience integrating AI systems, designing REST APIs, and shipping SaaS products from prototype to launch. Built an LLM-powered support chatbot integrating Claude and OpenAI APIs that reduced inbound queries by 30%, and delivered a fraud detection ML system achieving 84% accuracy. Cross-functional communicator with product ownership experience at an early-stage Dublin startup. MSc Computer Science, UCD 2025.

CORE COMPETENCIES

JavaScript

Python

Node.js

TypeScript

REST API Integration

AI/ML Systems

Claude API

OpenAI API

SaaS Development

AWS

PostgreSQL

Supabase

EXPERIENCE

NomadEire Oct 2025 - Present

Software Engineer · Dublin, Ireland

- Shipped production Node.js platform features as sole engineer and **Product Owner**, partnering across product, design, and stakeholder teams
- Designed **REST API endpoints** and integrated third-party APIs (Claude API, Gemini API) for agentic workflow automation
- Delivered features rapidly from prototype to production; facilitated agile ceremonies, sprint planning, and cross-functional reviews
- Built and deployed multi-agent agentic pipelines for automated data extraction and reporting on AWS infrastructure

Advice Bytes May 2025 - Aug 2025

AI/ML Intern · Dublin, Ireland

- Built AI chatbot integrating **Claude API and OpenAI API**, reducing inbound support queries by 30%
- Achieved **87% GDPR compliance accuracy** in NLP classification pipeline using Python and scikit-learn
- Integrated Supabase PostgreSQL for conversation storage; deployed on AWS Lambda; maintained API security and data compliance

Accenture Oct 2023 - Aug 2024

Packaged App Developer · Bangalore, India

- Delivered enterprise **REST API integrations** using Java and Spring Boot for financial services clients across APAC
- Participated in agile delivery, stakeholder communication, and cross-team code reviews in a large engineering organisation

SELECTED PROJECTS

Advice Bytes Chatbot

AI-powered support chatbot integrating Claude API and OpenAI API. Reduced inbound support queries by 30% and achieved 87% GDPR classification accuracy in production NLP pipeline.

Stack: Python, Claude API, OpenAI API, scikit-learn, Supabase, AWS Lambda

Sentinel-AI

Fraud detection ML system achieving 84% accuracy across 10,000+ transactions. Reduced manual review workload by 60% with sub-500ms inference latency.

Stack: Python, scikit-learn, NLP text classification, PostgreSQL, AWS EC2

Venturella

Full-stack payments SaaS platform with REST API layer, Stripe integration, and complete user flows: onboarding, KYC, payment processing, and reporting. Sub-200ms PostgreSQL query performance.

Stack: React, Node.js, PostgreSQL, Stripe API, Docker, AWS

NomadOps

Internal operations platform delivered from zero to production as sole engineer and Product Owner. Agentic workflows integrating Claude and Gemini APIs for automated reporting.

Stack: React, Node.js, Electron, PostgreSQL, Claude API, Gemini API, AWS

EDUCATION

MSc Computer Science - University College Dublin (UCD) 2024-2025

Dublin, Ireland · 2:1

BTech Computer Science - Graphic Era University 2019-2023

India · 9.2/10 CGPA

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, Java, SQL Backend: Node.js, REST APIs, Microservices, Spring Boot

Frontend: React, Tailwind CSS AI/ML: Claude API, OpenAI API, Gemini API, Agentic Workflows, NLP, scikit-learn

Cloud and Infra: AWS (EC2, S3, Lambda, API Gateway), PostgreSQL, Supabase, Docker

Process: Git, Agile/Scrum, Product Ownership, Technical Documentation
