PROFESSIONAL SUMMARY

AI-native full-stack engineer with 2+ years shipping production systems using Claude API, OpenAI API, Gemini API, and agentic workflows. Built a GDPR-compliant multi-agent chatbot (30% inbound reduction, 87% accuracy), a real-time Kafka pipeline (10,000 events/min), and payment infrastructure (sub-200ms). React/TypeScript front-end, Python/Node.js back-end, deployed on AWS. MSc Computer Science, UCD Dublin (2:1, 2025). Fully authorised to work in Ireland (Stamp 1G). Portfolio: dhruvabisht.com - shipped AI products, not demos.

CORE COMPETENCIES

Python

Node.js

AWS Lambda

API Gateway

EC2 / S3

React / TypeScript

PostgreSQL

Apache Kafka

Docker

REST APIs

CI/CD

Event-Driven Architecture

Claude API / OpenAI API

Agentic Workflows

TDD / Clean Code

WORK EXPERIENCE

NomadEire Oct 2025 - Present

Software Engineer · Dublin, Ireland

- Built a **Kafka-based advertising event pipeline** processing **10,000 events/min at sub-100ms latency** on AWS Lambda + API Gateway; system sustained 10x traffic spike without degradation.
- Designed and delivered **NomadOps** as sole engineer + Product Owner: full-stack product from discovery through production in 6-week sprint cycle.
- Implemented **event-driven microservices architecture** with Python backend and React/TypeScript frontend; deployed on AWS EC2 with Docker containerisation.
- Set up **CloudWatch monitoring, automated alerting, and CI/CD pipeline** (GitHub Actions) reducing mean time to detection for production incidents by 60%.

Advice Bytes May 2025 - Aug 2025

AI Developer · Dublin, Ireland

- Built a **GDPR-compliant AI chatbot** on Claude API with multi-agent pipeline: reduced inbound legal queries by **30%** and achieved **87% GDPR accuracy** on independent testing.
- Deployed on **AWS Lambda** with Python/Node.js backend and REST API integration to company CRM; zero compliance escalations post-launch.
- Used **Claude Code and AI pair-programming** to accelerate development cycle - shipped from spec to production in 8 weeks solo.

Accenture Oct 2023 - Aug 2024

Packaged App Developer · Bengaluru, India

- Developed and maintained **Spring Boot microservices** for enterprise client applications, integrating REST APIs with downstream systems.
- Introduced **unit testing coverage for critical payment paths**, reducing bug rate in covered areas and accelerating CI/CD pipeline throughput.
- Collaborated with cross-functional teams across business analysis, QA, and infrastructure to deliver client requirements on time across 3 project cycles.

KEY PROJECTS

Sentinel-AI Python · NLP · Claude API

AI fraud detection system: **84% accuracy, 60% reduction in manual review**. NLP pipeline using scikit-learn with Claude API for explainability layer. Deployed on AWS.

Venturella - Payment Layer Node.js · PostgreSQL · AWS

Full payment processing service: **sub-200ms PostgreSQL** query latency, Stripe integration, fault-tolerant retry logic. Zero payment failures post-launch.

Kafka Ad Engine Apache Kafka · AWS Lambda · Python

Real-time advertising event pipeline: **10,000 events/min, sub-100ms latency**, 10x traffic spike resilience. CloudWatch monitoring + automated alerting.

EDUCATION

MSc Computer Science · University College Dublin	2024 - 2025
2:1 Honours · Focus: Distributed Systems, Machine Learning, Cloud Computing	
BTech Computer Science · Graphic Era University, India	2019 - 2023
9.2/10 GPA · Top 5% of cohort	

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, Java, SQL, Swift	
Backend/APIs: Node.js, Spring Boot, REST APIs, FastAPI patterns, Microservices	Frontend: React, Tailwind CSS, Electron
Cloud/Infra: AWS (Lambda, EC2, S3, API Gateway, ECS), Docker, CI/CD (GitHub Actions)	
Data: PostgreSQL, Supabase, Elasticsearch, Apache Kafka, MySQL	
AI/ML: Claude API, OpenAI API, Gemini API, Agentic Workflows, NLP, scikit-learn	Tools: Claude Code, Cursor, Git, Docker, Jira, Agile/Scrum
